Lund University Graduate Fair

THURSDAY 22 NOVEMBER 2018 16:00–18:00, LUX
International degree programmes and how to apply

SEMINAR
Learn more about studying at Lund University, an overview of the international Master’s and Bachelor’s degree options and detailed instructions on how to make a complete and correct application, including which documents to submit. Special information is also provided for current students at Lund University.

Location: LUX upper lecture room
Time: 16:45-17:15

FINDING YOUR WAY
Zone numbers on this floor plan correspond to subject areas, as listed on the next page.
The International Marketing and Recruitment team can guide you regarding suitable subject areas and programmes, answer questions regarding the application process and official documents (e.g. transcripts, translations, English) and other practical questions.

SCIENCE (2)
- Astrophysics
- Atmospheric Sciences and Biogeochemical Cycles
- Bioinformatics
- Biology (several specialisations)
- Chemistry (several specialisations)
- Geoinformation Science and Earth Observation
- Geographical Information Systems
- Geomatics
- Geology
- Mathematical Statistics
- Mathematics
- Molecular Biology (several specialisations)
- Physical Geography and Ecosystem Analysis
- Physics (several specialisations)
- Bachelor's in Physics
- Bachelor's in Mathematics
- Bachelor's in Physical Geography and Ecosystem Science

ENVIRONMENT & SUSTAINABILITY (3)
- Environmental Management and Policy
- Environmental Sciences, Policy and Management
- Environmental Studies and Sustainability Science

ENGINEERING & DESIGN (4)
- Architecture
- Biotechnology
- Disaster Risk Management and Climate Change Adaptation
- Embedded Electronics Engineering
- Energy-Efficient and Environmental Building Design
- Fire Safety Engineering
- Food Innovation and Product Design
- Food Technology and Nutrition
- Industrial Design
- Logistics and Supply Chain Management
- Production and Materials Engineering
- Sustainable Urban Design
- Water Resources Engineering
- Wireless Communication

MEDICINE & HEALTH (5)
- Advanced course: Cancer Biology
- Advanced course: Neuroscience
- Biomedicine
- Medical Science (several specialisations)
- Public Health

HUMANITIES (6)
- Applied Cultural Analysis
- Archaeology – Theory and Practice
- European Studies
- Film and Media History
- Human Rights Studies
- Language and Linguistics (several specialisations)
- Literature – Culture – Media (several specialisations)
- Swedish Language course packages level 1-4 and 1-8
- The Religious Roots of Europe
- Visual Culture

INTERNATIONAL STUDIES & SOCIAL SCIENCES (7)
- Asian Studies
- Cultural Criminology
- Development Studies
- European Affairs
- Global Studies
- Human Ecology – Culture, Power and Sustainability
- Human Geography – Urban,
- Economy, Ecology and Landscape
- International Development and Management
- Media and Communication Studies
- Middle Eastern Studies
- Psychology
- Service Management (several specialisations)
- Social Anthropology
- Sociology
- Sociology of Law
- Social Studies of Gender
- Strategic Communication
- Welfare Policies and Management
- Bachelor's in Development Studies

BUSINESS, ECONOMICS & MANAGEMENT (8 & 9)
- Accounting and Finance
- Economic Development and Growth
- Economic Growth, Population and Development
- Economics
- Entrepreneurship and Innovation
- European and International Tax Law
- Finance
- Information Systems
- Innovation and Global Sustainable Development
- International Economics with a Focus on China
- International Marketing and Brand Management
- International Strategic Management
- Management (MiM)
- Managing People, Knowledge and Change
- Bachelor's in Economy and Society
- Bachelor's in International Business

LAW (10)
- European Business Law
- International Human Rights Law

STUDENT LIFE (12)
- Studentlund, nations, Academic Society
PROGRAMME DETAILS AND APPLICATION INSTRUCTIONS

All English-taught degree programmes are listed on the international website, together with entry requirements, programme-specific document requirements and application instructions: lunduniversity.lu.se/programmes

MASTER’S DEGREE APPLICATION PERIOD

Lund University has over 100 Master’s programmes taught in English. It is possible to apply to most programmes in the final year of your Bachelor’s studies, so long as you can provide proof of enrolment and expected graduation together with your official transcript thus far.

The international Master’s programmes have one application period:

• Apply from 15 October to 15 January. Documents due 1 February. Admission results in early April.

BACHELOR’S DEGREE PROGRAMMES IN ENGLISH

Lund University has eight Bachelor’s programmes taught in English and full-time Swedish language course packages (non-degree). To apply for Bachelor’s studies, your completed, official secondary school transcript must be submitted by the document deadline.

The international Bachelor’s programmes open twice for applications:

• International application period: 15 October to 15 January. Documents due 1 February. Admission results in mid-April.

• Swedish/EU application period*: 15 March to 15 April. Documents due 20 June (IB students have a deadline of 5 July). Admissions results mid-July.

*As the admission results are in mid-July, it is unlikely a non-EU student can secure a residence permit in time for the start of studies in late August.
